Base map updates (5 mins)

Federal Lands Base Map Project Objectives:

- **Improve** the representation of federal lands in base maps - start with USFWS, NPS, USFS lands

- **Maintain** - Use PAD-US to pilot efficient protocols to maintain annual updates (or quarterly - direct from agencies)
- **Support** - Make it easy for base map developers to maintain good federal data (leverage expertise available through FLWG and the common PAD-US framework (i.e. host webinars, share lessons learned, update guidance).
- Active providers for direct FLWG outreach:
 - Google: 1/27: Next Google / FLWG steward webinar. 1/2/2020: Holli contacted Mason (PAD-US Tech Specialist) to explore PAD-US gdb sometime soon. 11/13 webinar with FWS/NPS/USFS data-stewards and Google. Select (USFS Proclamation boundaries) updates expected to begin in Jan while additional feature types sought to portray fee lands. Next steps: 11/20 Google schema meeting
 - Esri vector base map: week of 12/2: Sean will provide contacts (base map manager, community maps, Rich for services) for PAD-US Team to overview boundary types for base maps, customized updates. Esri getting frequent fed updates from providers separately using base maps guidance contacts now. 11/18: PAD-US Team meet w Sean Breyer re: 1) FLWG base map project status, 2) USGS commitment to maintain annual federal updates, 3) hear updates re Esri's base map product.
 - USGS NGP (US Topo): Interested in lessons learned from Google Pilot and other effort. Annual PAD-US update needed (1/3 nation updated annually). May be interested in select quarterly agency updates
 - Apple: Sept: Ron made initial contact, Lisa followed w offer to host webinar. Sept 16th - Brittany Prazak asked several questions (PAD-US team responded) and will coordinate Apple contacts to share availability. Oct - No response to request for update.

Schedule next call (5 mins)

- **Skip Feb?** - same day as Fed UC

- Move full FLWG to bimonthly, with smaller project team meeting in between (e.g. PAD-US 2.1 production, base map outreach)?
- **Wed, March 11th (3-4 ET)**
 - Esri Fed UC debriefing
 - PAD-US 2.1 status
 - Base map updates
 - NPS challenges and success stories, as time allows
